

# Innovation & Integrity

## HIGH EFFICIENCY ENERGY STAR® MULTI-POSITIONAL FURNACE SERIES

- Now available with:
- Classic/Classic Air options
  - EVOLution options
  - MAXimum options

**COMPACT-multi**

Don't let their compact size fool you. These ENERGY STAR® qualified units pack a lot of power and energy savings into each versatile design. Multi-positional means they're right for any job. Their compact size lets them fit where others won't, even accommodating today's HI-SEER A-Coils.

### **NEW** FRONTIERS OF SAVINGS

We're pleased to offer a number of options on our multi-positional series, each offering new levels of comfort and savings while continuing to incorporate all the great features that have kept Kerr customers happy for over 30 years.

Our new EVOLution Series options are cutting edge and offer a significant benefit over conventional warm air technology. This series incorporates Kerr's exclusive EVOLmanagement system for even, steady comfort. Our TRUE air modulation, provides true cooling and dehumidification for a comfortable, healthy home.

### Go all the way and step up to our MAX Series.

Our MAX series features all the benefits offered with the EVOLution series, but goes one step further by incorporating our Kerr ECM technology . Not only will you be living in greater comfort, our ECM technology will provide utility cost savings on your heating/cooling bills year after year.

Kerr stands behind every product it sells and carries one of the best warranties in the business.

Added Savings with

A net utility bill savings of up to \*240/yr can be realized when using constant air circulation.

Your actual savings will depend on the efficiency of the equipment being replaced, weather in your area, kWh pricing in your region, preferences for indoor temperature and energy efficiency of your home.

\* based on .08 cent/kWh and conventional motor usage = approximately 400 watts and motor usage of 75 watts.
